

# SIMULATE AT THE SPEED OF DESIGN

## REDUCE THE RISK AND COST OF LATE DESIGN, MANUFACTURING CHANGES

MAY 16, 2024 / Virtual Global Event

If you are considering implementing simulation for the first time, utilize CAD embedded simulation tools but running into challenges with speed and accuracy, or want the next step and explore multiphysics analysis, this event is for you!

**All sessions will be presented in English, with live audio translation into German, Spanish, Italian, Portuguese, Korean, Japanese, French.**

**Scan the QR code to register now.**
